ENTERPRISE CONVERSION ARCHITECTURE

# SHAPE-SHIFTER

PERSONALIZATION ENGINE | EXECUTIVE SPEC SHEET

## EXECUTIVE OVERVIEW

Shape-Shifter is an ultra-lightweight, edge-cached personalization script designed for high-ad-budget e-commerce brands. It dynamically adapts landing pages for each visitor using location, local weather, currency, and cultural context. The stated target is a **20%–35% lift in checkout conversion rates**; actual results depend on implementation, traffic, and testing.

| SUB-50 MS | 0 MS TARGET | ONE-LINE | EDGE FALLBACK |
|---|---|---|---|
| Execution speed target | Page-speed impact target | Shopify-compatible integration | Local resilience strategy |

## THE 14 ENTERPRISE PERSONALIZATION UPGRADES

**01 GEO-ADAPTIVE HERO SKYLINE**
Adapts hero photography to a visitor's city skyline, such as Dubai Marina, Manhattan, London Tower Bridge, or Tokyo.

**02 NATIVE-SCRIPT CULTURAL GREETINGS**
Welcomes visitors with region-appropriate language and typography, including Arabic, Japanese, French, or English.

**03 DYNAMIC LOCALIZED HEADLINES**
Personalizes landing-page copy in real time, for example: "Exquisite Pieces for Dubai Collectors."

**04 AUTOMATED MULTI-CURRENCY CONVERSION**
Formats local prices in supported currencies, including AED, GBP, USD, EUR, and JPY.

**05 LOCAL-TIME OFFER COUNTDOWN**
Uses the visitor's local timezone to present a clearly defined offer window and countdown.

**06 WEATHER-ADAPTIVE GEO MERCHANDISING**
Ranks products against local conditions: lightweight items for sunny weather, waterproof outerwear for rain, or cashmere for cold weather.

**07 CANVAS WEATHER PARTICLES**
Adds subtle HTML5 Canvas rain or snow effects that match local weather conditions.

**08 LOCALIZED PAYMENT TRUST BADGES**
Shows regionally relevant payment options where supported, such as Tabby, Klarna, Alma, Paidy, or Apple Pay.

**09 GEOGRAPHIC SOCIAL PROOF**
Can show city-specific activity messages. Use only authentic, consent-compliant events—never fabricated customer activity.

**10 BRAND-STYLE INHERITANCE**
Adopts the host store's computed typography, button colors, and border radii for a consistent brand aesthetic.

**11 REGIONAL TAX & VAT DISCLOSURES**
Displays region-specific tax notes based on verified rules and the store's tax configuration.

**12 LOCALIZED CONCIERGE CHAT**
Displays advisor availability and language badges aligned with supported regions and service hours.

**13 URL PARAMETER OVERRIDE**
Lets campaign managers test variations via parameters such as ?city=Tokyo&weather;=Snow, subject to validation and privacy controls.

**14 LOCAL FAIL-SAFE ENGINE**
Uses defensive loading and fallback behavior to reduce the risk of personalization disrupting the storefront.

## IMPLEMENTATION & A/B TESTING

| SETUP | VALIDATION | INVESTMENT |
|---|---|---|
| 7-day done-for-you installation target | Controlled 14-day A/B test against the default storefront | $3,000–$6,000 upfront + $500/month retainer |
